

Uktv2c Mac Desktop VPN Configuration

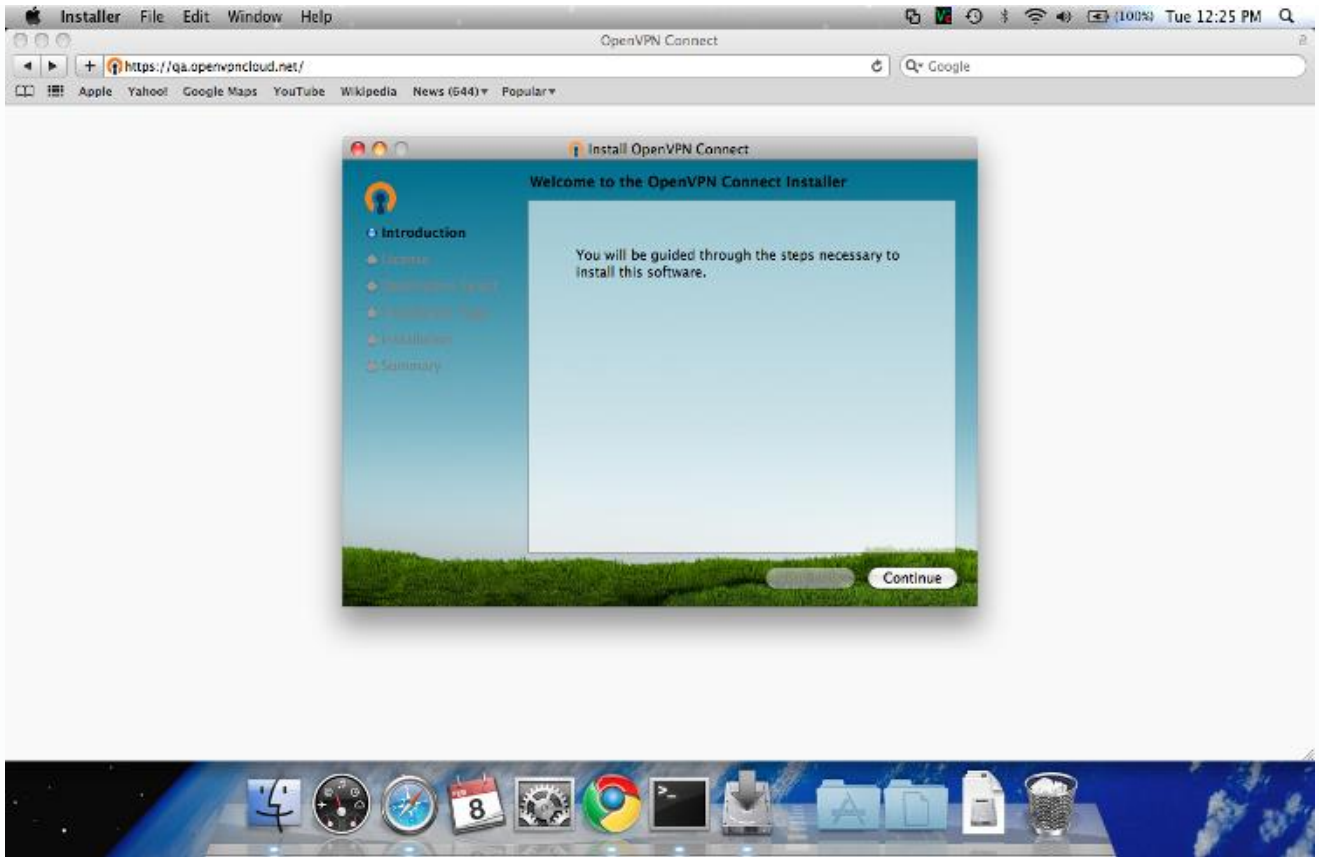

After

entering your credentials y

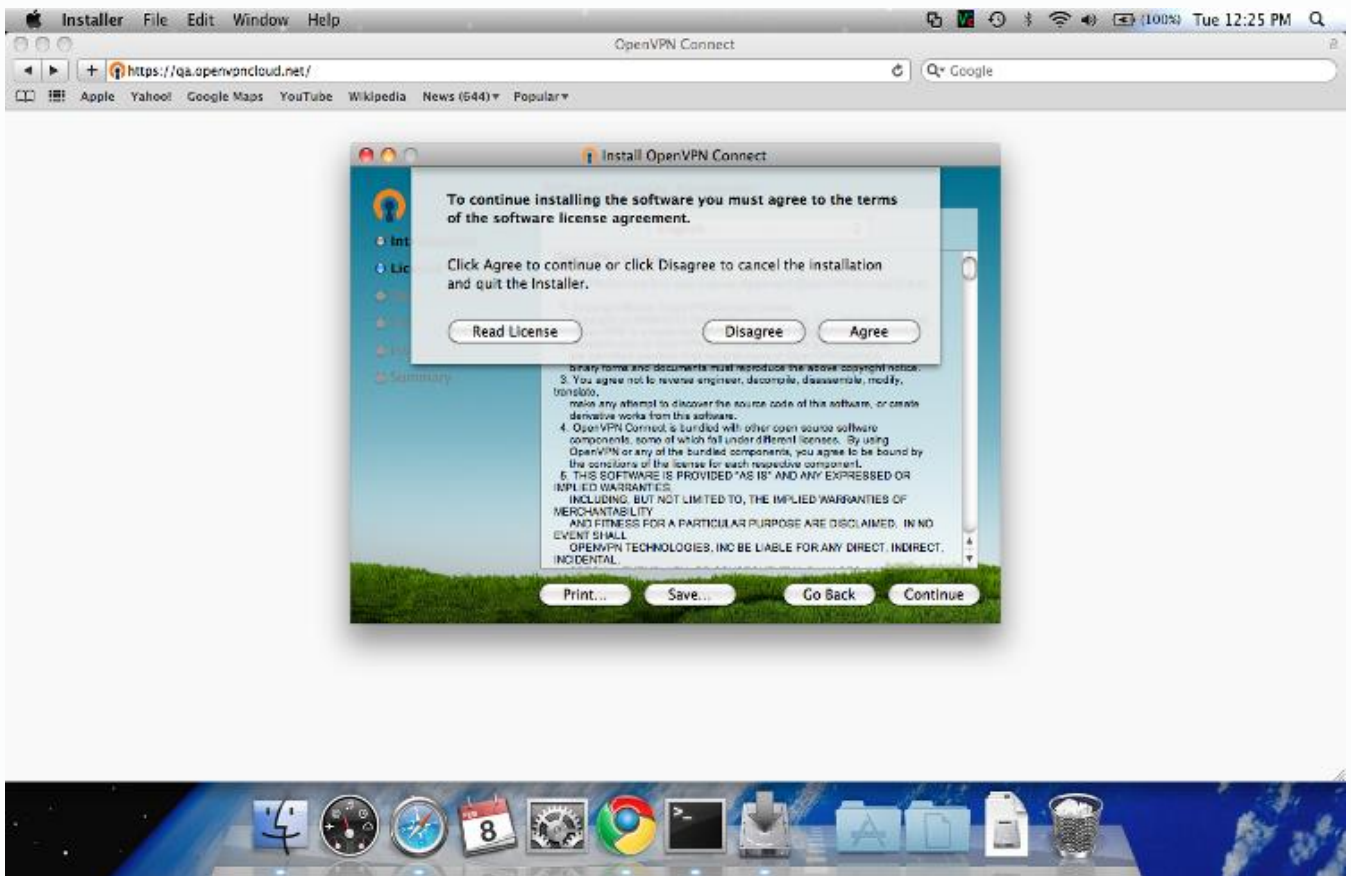

You will be asked to download the installer:

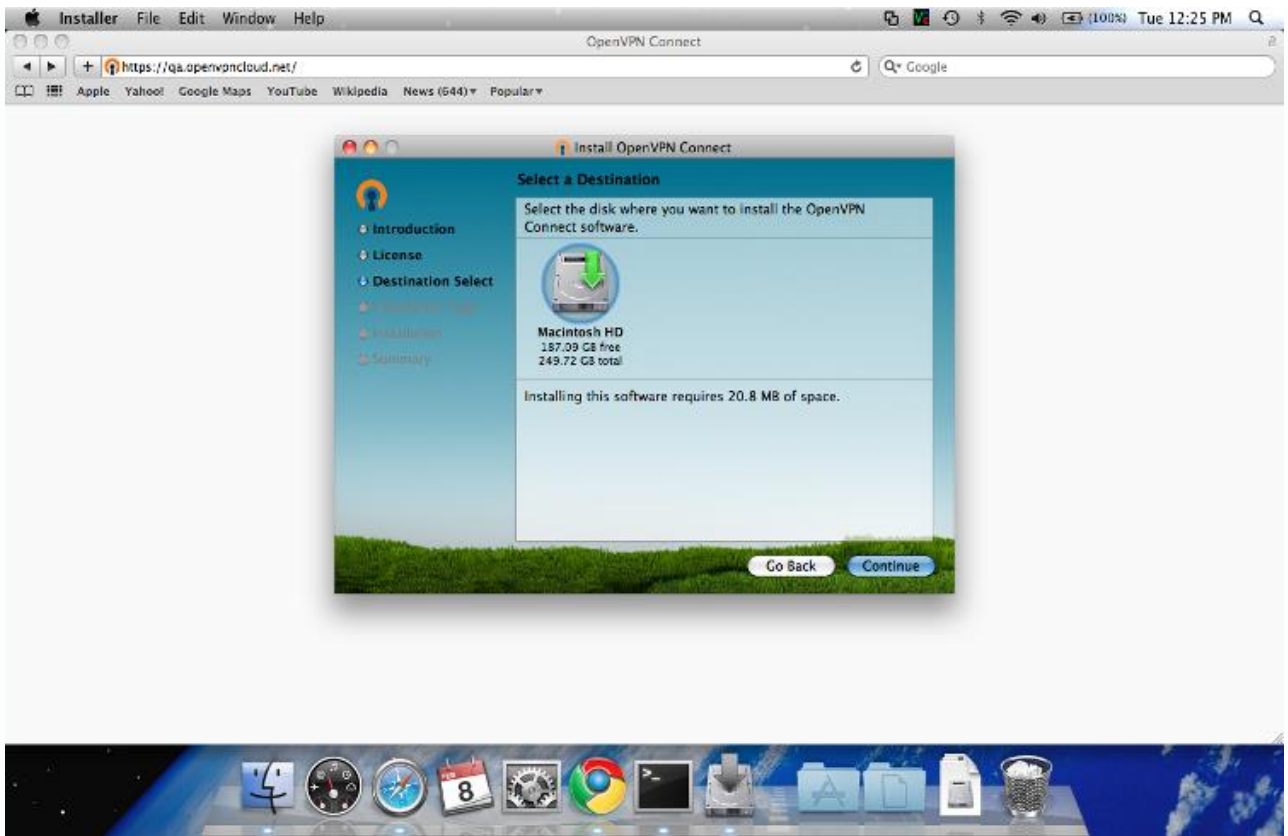

After downloading and running the installer you will be prompted to continue with the installation:

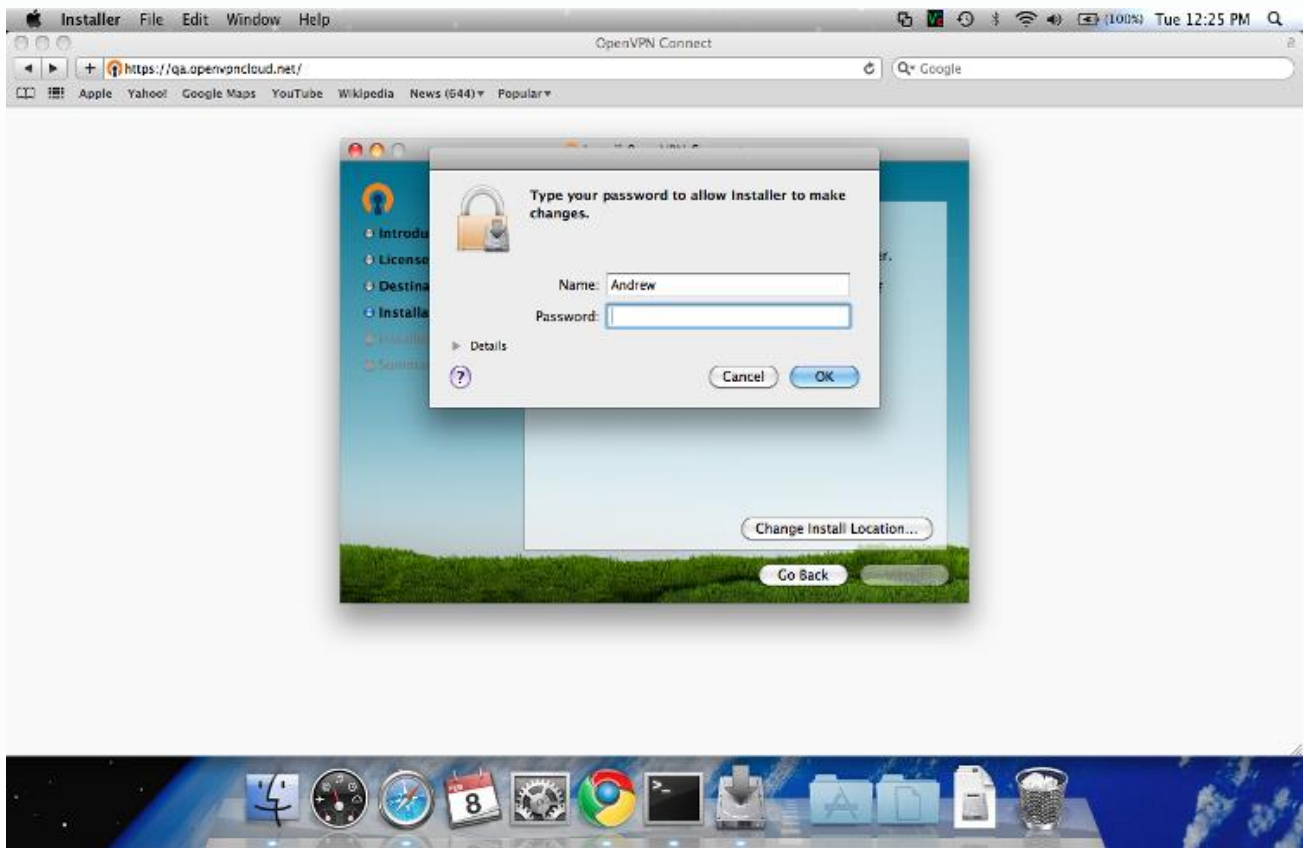

After clicking "Continue" you will be asked to agree to licensing terms:

After agreeing to licensing terms it will ask you where you want to install the software:

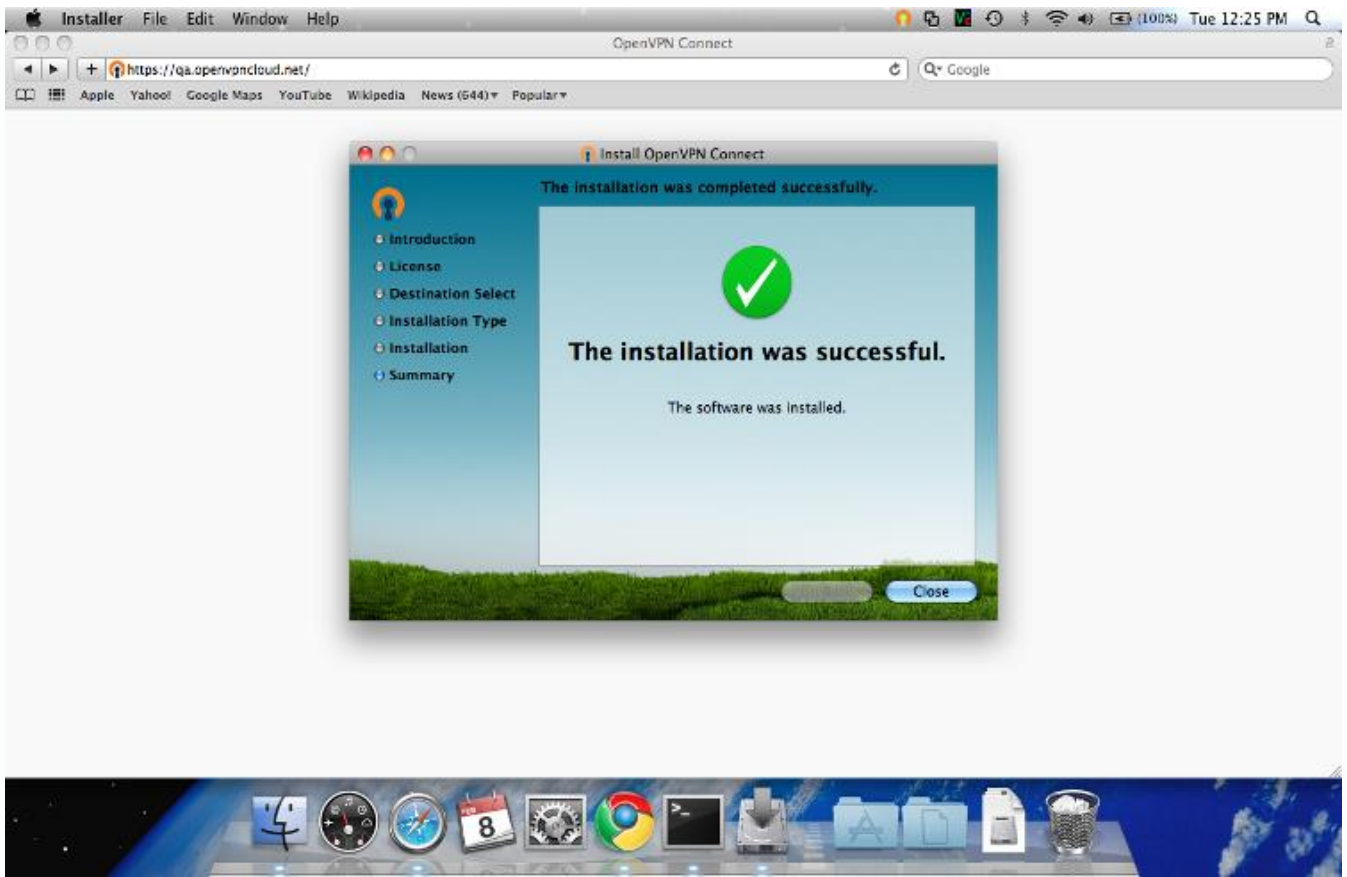

After selecting the disk to install too you will need to enter your user credentials:

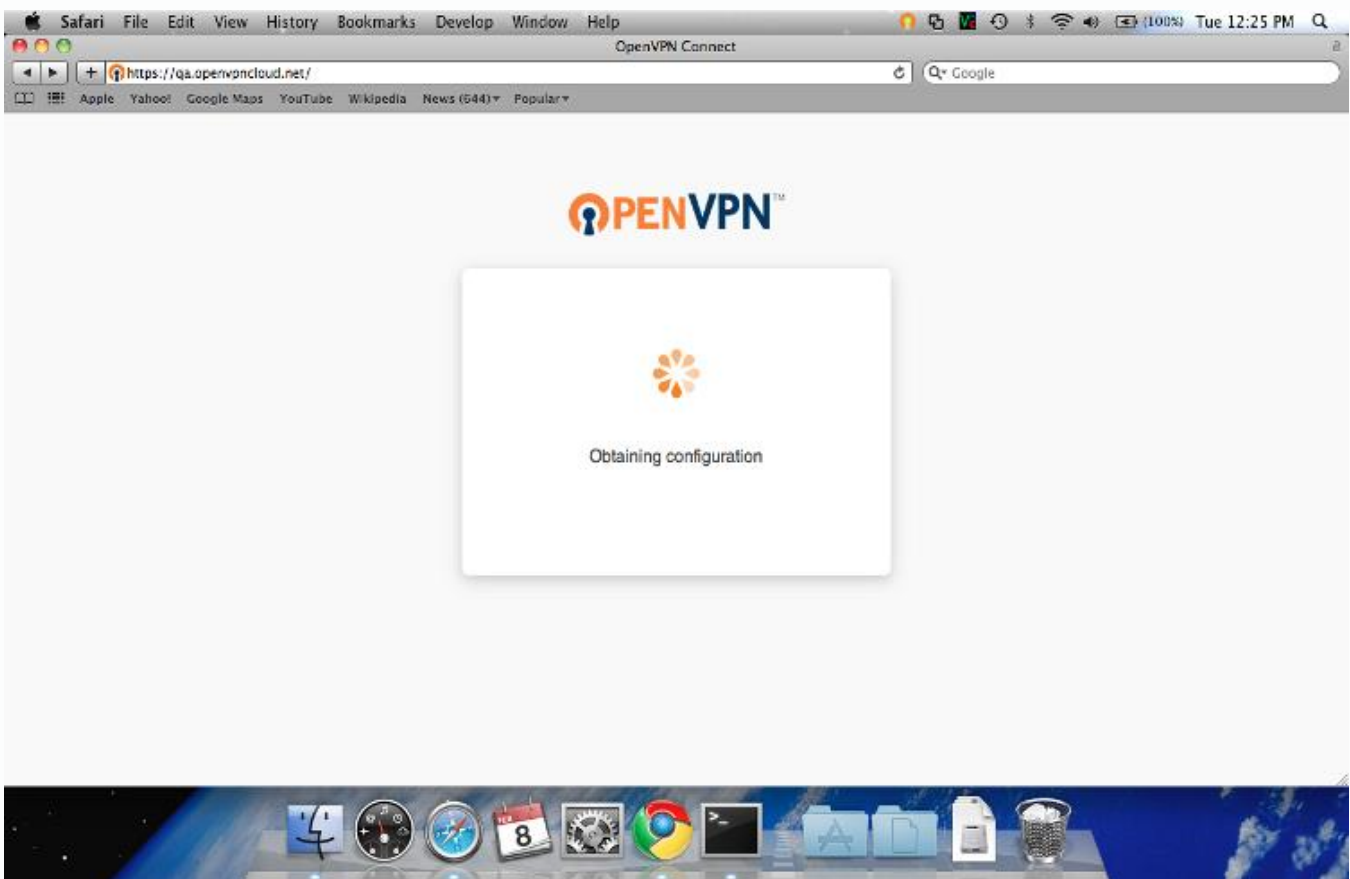

After entering your credentials the installation will continue.

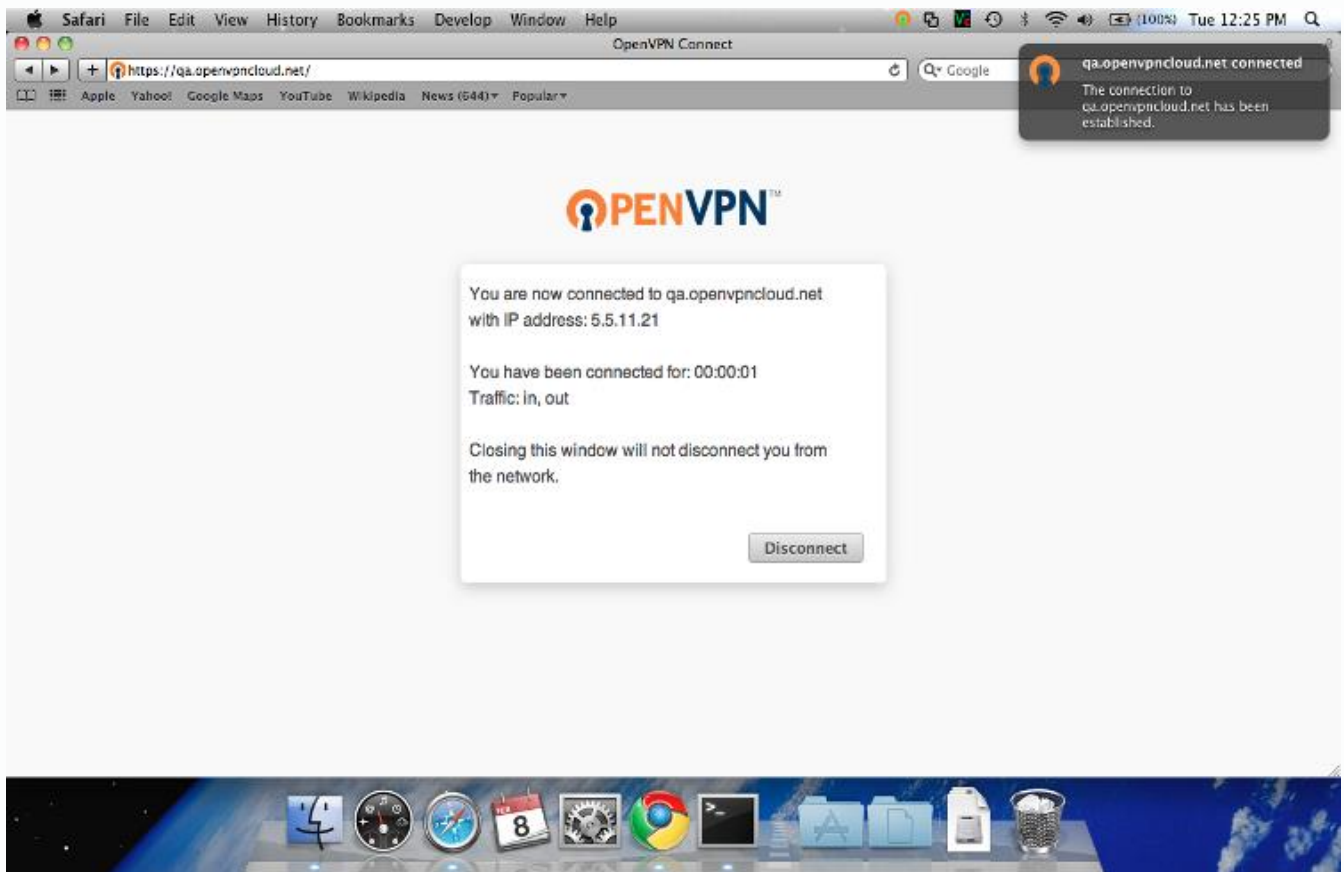

After the installation has completed you will see the following screen, click close:

You will now be brought back to the browser and the client will begin connecting:

After the connection has succeeded you will have a status windows and your tray icon will turn green:

You are now connected to the VPN.

To disconnect or reconnect to the VPN at a later time

Use the New Openvpn icon on your top Toolbar.

Right Click this icon and select the action you require “Disconnect” or “Connect to..”

Don't Forget to Download the uktv2c VPN Toolbar for all UK TV links

Down load from here <https://www.uktv2c.com/vpn-toolbar>
